TEMPERED GLASS

LAMINATED TEMPERED GLASS (SUPERIOR SOUND REDUCTION)

7 Available Sizes

Scan to see more

Lighting

Ceiling integrated with LED light strips for ambience and working needs

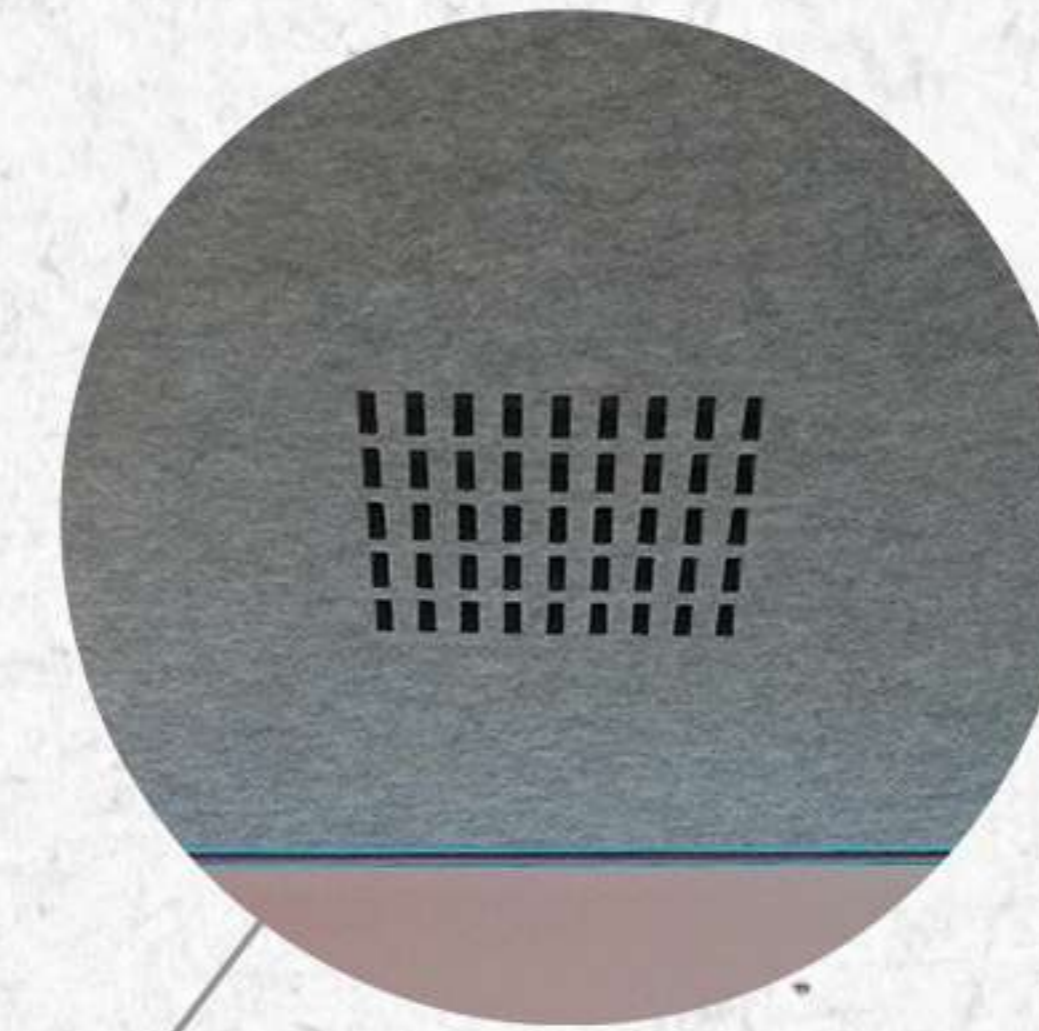

Covered-Up Fan

Top part of fan is covered to prevent dust accumulation from affecting the performance of the fan(s).

Ventilation

Circulation of air flow at every 1-2 min at 90m³/h, 180m³/h, or 360m³/h, depending on pod model

Automatic Door Closer

Brand: Honeywell
Included for: #5 Cowork, #6 Talk, #7 Talk Plus
Upgradeable for: #1 Phone, #2 Solo, #3 Relax, #4 Solo Plus

Inner Walls

Fire-retardant PET panels don both sides of the walls - absorbing most of the acoustic energy with minimal sound transmitted out.

Integrated Panel with Power Output

2 x universal electrical sockets; 1 x Type-A and 1 x Type-C USB charging ports

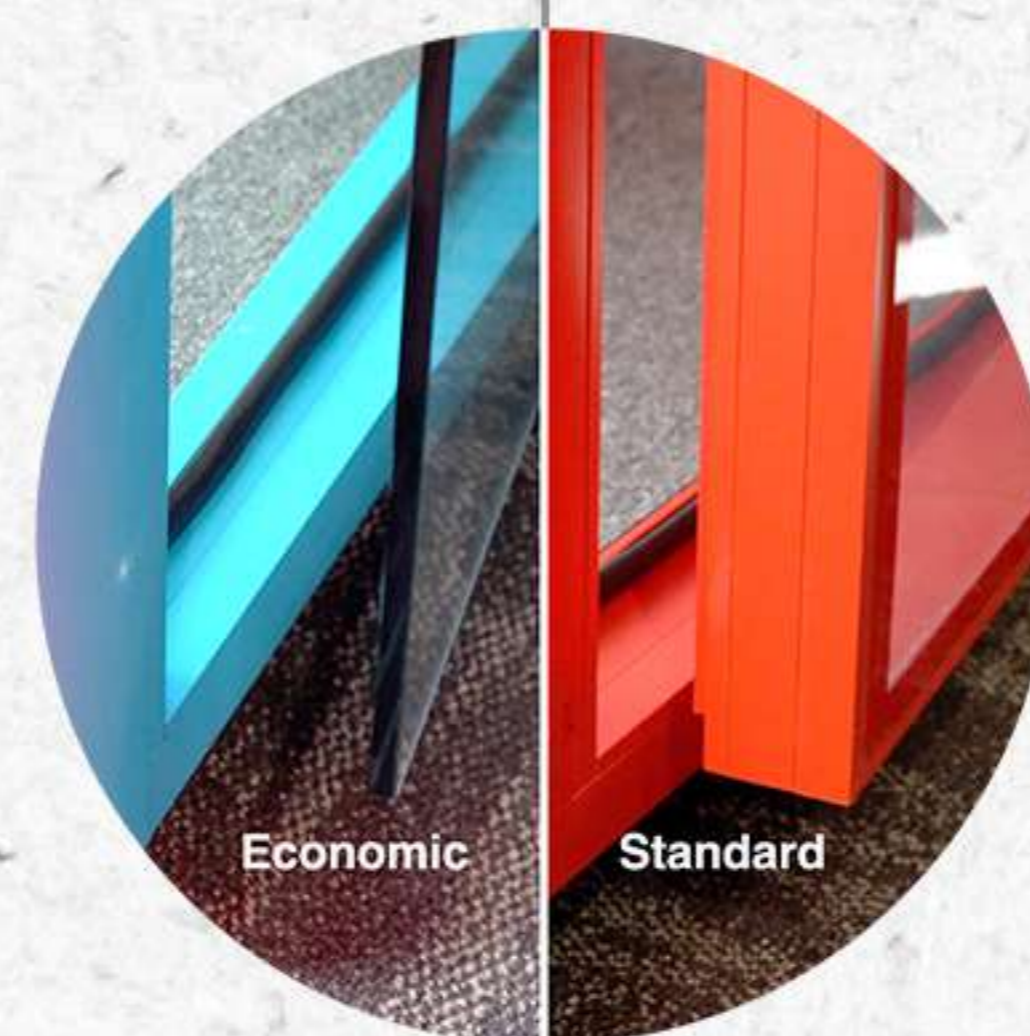

Motion Sensor

Motion-activated ventilation fan and lighting, set at a default 5-minute delay before switching off automatically; adjustable delay timer with 2 other options of 45 seconds and 15 seconds.

Castors & Adjustable Feet

Wheel castors to assist with moving, with feet option to keep pod stationary when its placement is determined. Feet are height-adjustable - a solution for unlevelled flooring issues. Adjusters are hidden under carpet flooring for easy access.

Door Frame

Economic option: Recessed frameless door of 10mm thickness in single glazed tempered glass.
Standard option: Flushed frame door of 10mm thickness in laminated sound-reducing tempered glass.

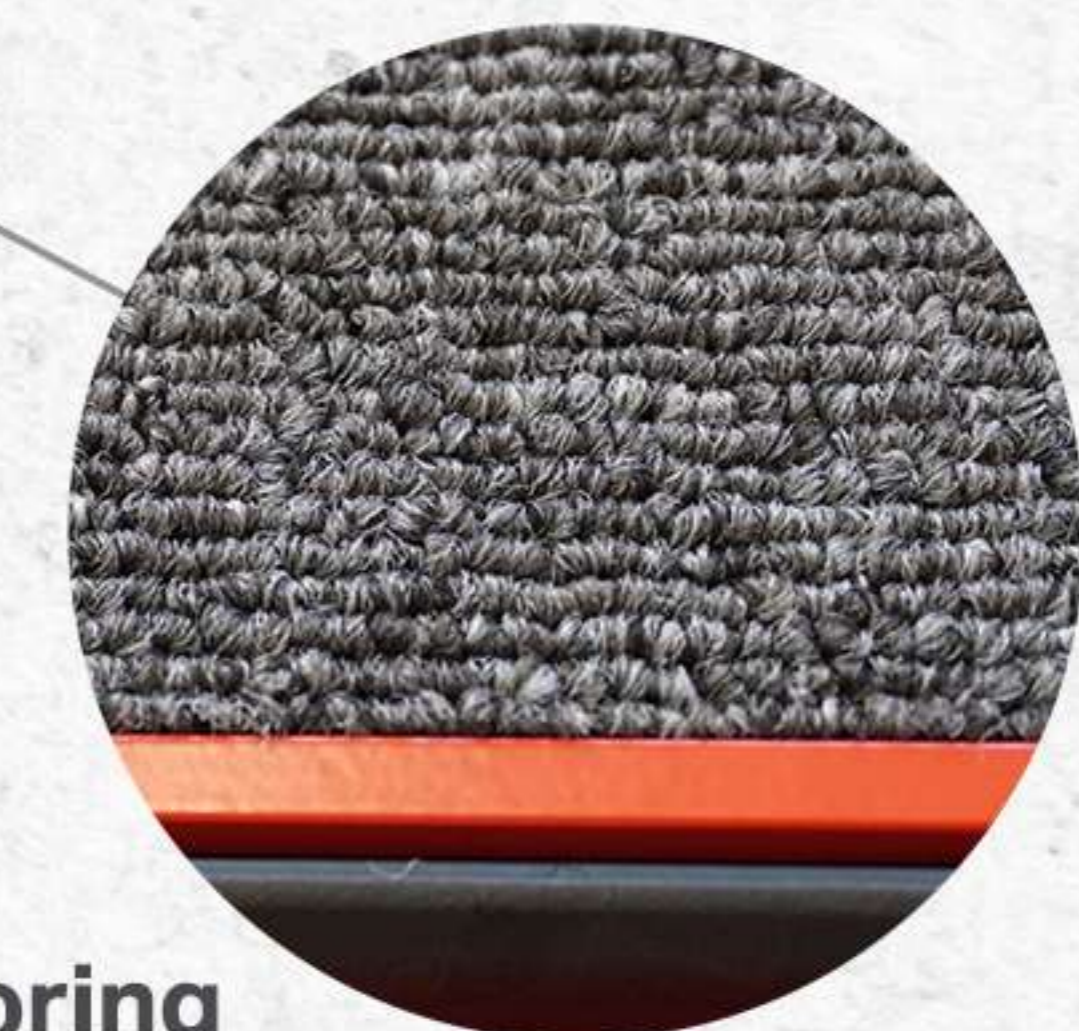

Rear Glass

Economic option: 12mm tempered glass
Standard option: 12mm laminated tempered glass for superior sound reduction

Door Handle

Both options' door handles are made from stainless steel in hairline finish for scratch resistance

Flooring

Carpet flooring for sound absorption and to conceal pod's adjustable feet.

CUSTOMISABLE
COLOURS
INTERNAL & EXTERNAL

Exterior Frame Colours

Powdercoated Steel & Aluminum With Corrosion Resistance

Interior Colours

Polyethylene Terephthalate (PET) With Flame Retardant & Sound Insulation

CERTIFICATIONS

Superior Acoustic Rating

30 NIC (Noise Isolation Class)

Air Quality Report

Formaldehyde Emission: 0.028 mg/m³
(safety limit: 1 mg/m³)

WARRANTY

3 Years
Warranty coverage on structure

1 Year
Warranty coverage on electricals
